Life's Great Products, LLC

Since 1992, Life's Great Products, LLC has been manufacturing pet products that step above the industry standard of acceptable results.

COMMITMENT

Our products are 100% Federal Trade Commission (FTC) Placebo free. Its not a question of whether a product works anymore. Consumers will buy anything placed on the shelves of their favorite stores. They will take the product home and after its use, they assume it works.

They will tell their family and friends that they found the best product. Others will go out and buy these products based on referrals. The FTC and private testing

labs will later determine some of these manufacturers are selling products that do not work.

Alas, these worthless products will still stay on store shelves and fill the commercial airwaves with testimonials that their products work. Thousands will buy the products and the placebo cycle will continue.

Our products do not have a placebo factor, because we use ingredients that work!
